Canterbury Fair

There aren't really thanks adequate for all the hours and hard work everyone puts in, and Fair 2024 was no exception. We thought you might like to know where all that money goes after the hard work.

The 2024 Fair \$\$ went to two Belmont seniors who had worked on the Fair for much of their childhood; we donated some funds to the CES nurse to spend at her discretion for the benefit of the kids; the Canterbury United Community Church, which sponsors the Fair, has historically received a portion of the proceeds AND, last but not least, the Canterbury Fund has been a long time benefactor of the Fair.

After all is said and done, we donated over \$10,000 to worthy causes. Three Cheers for that old Fair Spirit!

A deliberative session for the 2025-2026 school budget will be held on February 6 at Belmont High School beginning at 6:00 pm.

All warrant articles will be considered at this session. There will be opportunities for explanation, discussion, and amendment of each article.

The conclusion of each article will result in voting either to add the article to the ballot for voting on Election Day in its original form, or to add the article to the ballot for voting as amended.

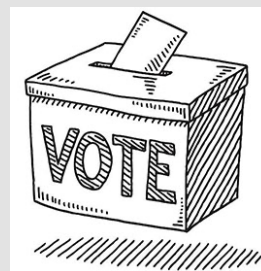

When the deliberative session is adjourned, the language of each

article will be finalized, but there will be no decision on whether or not it is passed.

On Election Day, March 11, voters will mark "yes" or "no" on each warrant article in the voting booths with the outcome of each article being decided.

Candidates for the open moderator seat and the open school board seats will also be on the ballot.

Belmont residents will vote at Belmont High School and Canterbury residents will vote in the Old Town Hall. Individuals who qualify for absentee voting may contact the SAU Office at 603-267-9223 for information.

Dear Friends,

Over the last month of holiday celebrations and travelling, we've gathered with others for potluck feasts, afternoon coffee, juice and crackers, sharing a newspaper or card game. Peter and I have had more public meals in a month than we would in a year: in restaurants, hole-in-the-wall coffee shops, and airport and ferry-terminal picnics. Each one is little out of control and open to the surprises of strangers. In one tiny storefront restaurant, where small tables were arranged too close for the wait-staff to walk between, it was impossible not to eavesdrop!

We watched as two couples — strangers seated at adjacent tables, joined their meals and their conversation. First, they talked about the menu, then travel misadventures, then where they were from. The younger couple, two men, revealed that they were newlyweds. The older couple, a man and woman, responded with delight and raised a glass to their marriage. The four kept on talking after the plates were cleared, and coffee came, and the bill was paid.

As Peter and I squeezed out the door and walked past the front window, we saw the waiter bring them four more glasses and another bottle of wine; they were still

going strong!

It strikes me that tables remind us of the shared project of individuals living together. As Hannah Arendt wrote in *The Human Condition* (1958), tables simultaneously build relationships and separate us from one another. Mysteriously, at table, we connect and we maintain our identities. And often at table we are filled with food for body, mind, and spirit. A shared meal, a shared table, brings us undiminished into the lives of others, and it builds the community of friendship that ultimately knits us — in all our differences — together.

Now that the season of midwinter holidays is past, and we gather less frequently, I invite you to visit the Parish House Community Center on any Sunday at 11:15 am for shared coffee and snacks. You might sit down at a card-table or stand around an invisible table. Either way, I believe that there you'll be filled with the stories people tell (or imply), with laughter and sympathy, and with your own sense of self and connection. Whether or not you're a churchgoer, this table is for you.

In Peace, Becky

Wayne J. Blais

Wayne J Blais, of Canterbury, left this world unexpectedly on December 29, 2024.

Wayne's family meant everything to him and he was known for making sure his

family and loved ones were always taken care of before himself. If you needed him for help, he was there, without question.

He was a gifted craftsman with the uncanny ability to solve most any problem. The quintessential tinkerer, he loved working on projects in his home workshop.

He was born in Concord, NH, but grew up in Canterbury and graduated from Bishop Brady High School. From there, he received an ROTC scholarship and studied electrical engineering at

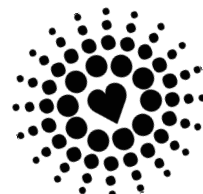

Northeastern Univ. in Boston.

After university, Wayne immersed himself in carpentry and worked his way to management. He was employed by Jewett Construction as a superintendent, where he was very respected by his peers.

Wayne had a love for motorcycles and enjoyed long rides with his wife, friends, and members of the Manchester Motorcycle Club where he was honored to be road captain. He was also an avid reader and a fabulous cook. There was always a seat and plenty of food at Wayne's table for an unexpected guest.

Wayne is survived by his wife Paula (Gagnon), daughter, Ashley (Blais) LeBlanc and her husband, Chris LeBlanc of Glenville, NY, son, Tyler Blais and his wife, Shayla (McCarron) of Derry, NH, mother, Linda (Rule) Bliss of Canterbury, NH, father, Wayne A. Blais and his wife, Lola (Kenney) of Tilton, NH, brother, Gary Blais and his wife, Ellen (Falvey) of Todd, NC, bonus daughter, Abigail (Bezio) Diphilippo, of Jacksonville, NC, stepdaughter, Bethany Chamberlain of Manchester, NH, stepson, Jordan Birtz and his wife, Sabrina (Tibbetts) of Hampstead, NH, as well as many extended family members and friends who will miss him tremendously.

A celebration of life for Wayne will be announced at a later date.

Canterbury Shaker Village Awarded \$2.5 Million Grant to Reimagine Visitor Experiences

Canterbury Shaker Village has received a \$2,500,000 grant from Lilly Endowment Inc. through its Religion and Cultural Institutions Initiative. The grant will support the Village's reinvigoration of its on-site and online interpretive experiences to emphasize the history and culture of the Shaker faith at the core of its visitor engagement strategy.

"This opportunity to share much more of the Village's unparalleled collections is both welcome and exciting," stated Curator of Research and Collections Shirley Wajda. "With this grant, the Village will increase both access to and knowledge of the Canterbury Shakers, their religion, and their individual and collective lives."

Over the next five years, Canterbury Shaker Village will create a "digital Village," developing an online database of biographies, documents, artifacts, and interactive exhibitions. This accessible database will complement and extend new interactive and immersive on-site exhibitions focusing on the Shakers' religious beliefs and experiences. "We will reinvigorate visitors' experiences and understanding of the Shakers and Shakerism within American and world religious history," added Wajda.

Speaking of History...

There are two known official town histories of Canterbury; the first, written by James Otis Lyford, was published in 1912. It records the history from 1727, our charter year, until 1912. A digital copy is available at the Canterbury Historical Society website <https://canterburyhistory.org>

The second town history, written by Kathryn Grover and published in 2017, contains 20th-century events and people, and is available for purchase from the Society.

New Town Website Is Finally Here!

In the 2024 Town Meeting, Canterbury voted to create a new website for the Town. Several bids were evaluated and the contract went to hasOptimization, a local Canterbury web development company. After many months of work, consulting with residents and board members, reorganizing files, fixing bugs, and uploading content, the website is finally "done".

Our website is now canterburynh.gov, not canterbury-nh.org. However, if you happen to go to the old web address, you will be redirected to the new one.

Another thing you might notice are the updates. When I said the website is "done", I meant that we have completed the basics, but there are a more improvements ahead! Some features that are coming soon include: subscribing to news and the calendar, interactive maps, and applications that can be filled out online.

While the new site is a prettier and better organized, what's more important is that it has a functional "backend" which makes updates and changes easier. But, it is still a work in progress. This website is meant to serve the people of Canterbury, so if you have feedback, we want to hear it! You can either use the [Contact Us](#) page, or email us at website@canterburynh.gov.

CES News

I am honored to share the history of the beloved Shaker Tree mural at Canterbury Elementary School, a timeless symbol of community spirit that continues to resonate even 30 years later. This mural, now a cornerstone of pride for the school, was created through the collective efforts of students, staff, and the broader community, guided by the vision of artist Emile Birch, who led the project as part of an Artist in Residence program in 1995.

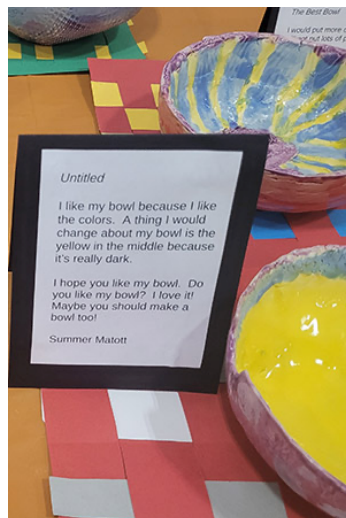

The stunning tree was crafted by local artists David Lamb and Rob Zielenski, with the active participation of parents, teachers, school administrators, and community members. A particularly pivotal figure in this project was CES teacher Kimberly Briggs, whose leadership and coordination were absolutely essential in bringing this dream to life. She worked tirelessly to ensure every detail came together seamlessly, fostering collaboration and dedication from all involved.

The project was made possible through a generous grant from the NH State Council on the Arts, as well as support from our PTO. Today, the Shaker Tree mural stands as a testament to the enduring power of community collaboration and artistic expression, a legacy that continues to inspire both those who were part of its creation and the generations who have followed.

Arts Integration at CES has continued this school year, allowing classroom teachers to collaborate with the visual arts teacher to achieve curricular goals and to promote learning through, about and with the arts. Here are a few highlights from this year:

In late October, CES students in 3rd and 4th grades hosted the annual Harvest Supper. Each student created a handmade clay bowl for soup. This activity was inspired by the Empty Bowls project, developed by an art teacher to promote art learning, community involvement, and service. The soup bowls symbolize both full and empty bowls, helping learners empathize with others in need of food. Students created an original clay bowl using clay and a slab technique. The bowls were decorated with stamped patterns and colored glazes, requiring 2 firings in our kiln. Each student wrote an artist statement and wove a display placemat for their bowl. Families

enthusiastically brought the bowls home to use and or display in their homes. This is a wonderful community tradition at CES that also allowed us to raise funds that were donated to the Loudon Food Pantry.

Second graders explored the work of Sol LeWitt, an American artist renowned for his "instructional" wall drawings. LeWitt believed that the idea behind an artwork was more important than the artwork itself. His instructions often featured geometric shapes and vibrant colors. Following a detailed set of instructions, the students created their own grid drawings using crayons, then added color using a tissue paper bleeding technique. This project helped strengthen their Habits of Work, particularly in listening and following instructions accurately. Soon, we'll be displaying our individual creations together to form a large wall drawing at CES!

Our primary learners are also engaging in art integration lessons. Kindergarten students explored the artistic style of Eric Carle by creating collages. They learned about his unique technique and then painted their own papers to construct a pumpkin landscape. First graders will be connecting their literacy program with art as they create still lifes, landscapes, and portraits!

Update from Canterbury Community Power Committee (CCPC)

We hold our meetings on the 2nd Wednesday of each month. In December, we had the pleasure of Sarah Brock,

from Clean Energy NH, join our meeting! She shared a lot of valuable information that will help us going forward.

We continue our search for Generation Grants for Renewable Energy Generation, as well as Distributed battery - BESS projects- Battery Energy Storage Systems. Canterbury residents have expressed frustration with cell coverage, and we have that on our "to do" list, as well.

CCPC continues to invite those that may have an interest in helping Canterbury with its goal of having the town buildings on renewable energy by 2035. We encourage you to join us and bring your ideas!!

Meetings are held on the 2nd Wednesday of each month beginning at 7:00 pm or as posted and are held in the Municipal Complex.

At present, we have begun the steps for the weatherization of Elkins Public Library. We have suggested to the BOS to put in a warrant article to assist with funding of that project. Our goal is to eventually weatherize all the municipal buildings.

CPCNH joined us for our January meeting. They went over the 2025 spring electric rates. Below are the CPCNH Supply Rates.

The Canterbury Basic rate allows our community to capitalize a fund to support local energy projects and programs that benefit our residents and businesses. To enroll, select the "local option" in the customer portal. Projects and programs enabled by the Canterbury Basic rate will be approved by the Board of Selectmen.

To change your default rate, or get more information, go to the CPCNH website.
